Welcome

Who are we?

The Early Ford V8 Club is a group of car and truck enthusiasts who have a passion for the engineering, style and detail of early Ford Motor products. We encourage the preservation and restoration of these vehicles by educating and inspiring fellow enthusiasts about the unique style and quality of the early Ford cars and trucks.

We are a non-profit association proud to support local community charities and service organizations throughout Vancouver Island. Our goal is to increase the value of membership through sharing our passion, knowledge and experiences with all fellow enthusiasts.
